

# *OSL Storage Cluster 3.0*

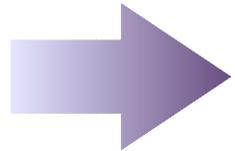

## *Trends und Technologien*

*OSL Gesellschaft für offene Systemlösungen mbH*  
*Bert Miemietz, e-mail: bert.miemietz@osl-it.de*

*OSL Technologietage 2005 – Berlin – 21./22. September 2005*

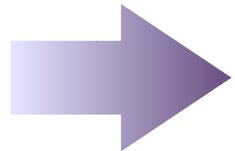

# Trends und Technologien

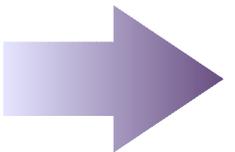

## Evolution und neue Qualitäten

SCSI  
Fibrechannel/SAN/Infiniband  
RAID  
Aufschwung Disk-Medien

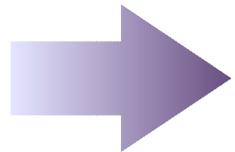

## Wiederkehrendes in neuer Gestalt

GRID Computing  
Oracle RAC  
NAS

## Technologien verschmelzen und suchen neue Anwendungsfelder

Networking (IP, Internet, Wireless, Storage Networks)  
Virtualisierung  
Java

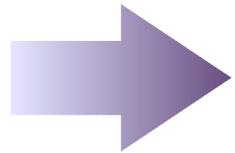

## „Universelle Plattformen“

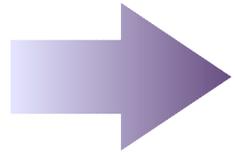

Oracle 10  
Solaris 10

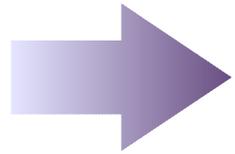

# Was ist wichtig ?

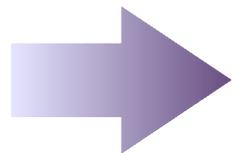

**Modularität**

**Offenheit / Kompatibilität**

**Einfachheit und Flexibilität**

**UNIX**
